

## Online Learning

Bunzl has partnered with Ecampus to provide an interactive online learning course via a Learning Management System (LMS).

### Advantages and Benefits of our Online Learning

- ❖ An additional way of teaching/learning to **compliment** and reinforce our face to face education programs.
- ❖ All care staff can benefit from completing the modules and quiz questions.
- ❖ **CPD hours** for Registered and Enrolled Nurses to assist in meeting the national registration requirement. The 'Understanding Continence Management' course includes eight modules; each module consisting of 0.5 to 1 hour of learning.
- ❖ A flexible learning option for your staff which provides access to continence management training anytime and anywhere.
- ❖ Effectively educate and hold the interest of the student who is often not computer literate and may not have English as their first language.
- ❖ Improve knowledge of care staff and nurses for better resident/client outcomes.
- ❖ Removes geographical barriers – the same educational opportunities wherever students are.
- ❖ Limits multiple staff being away from residents to attend education sessions.
- ❖ Increases confidence of using the computer and improve online skills.
- ❖ Additional modules to be added outside the continence arena.
- ❖ Option to work with specific customers to meet their specific educational requirements.
- ❖ Assists our Customers to up-skill care staff to meet Accreditation standards

NB: A CD ROM will be made available by arrangement.

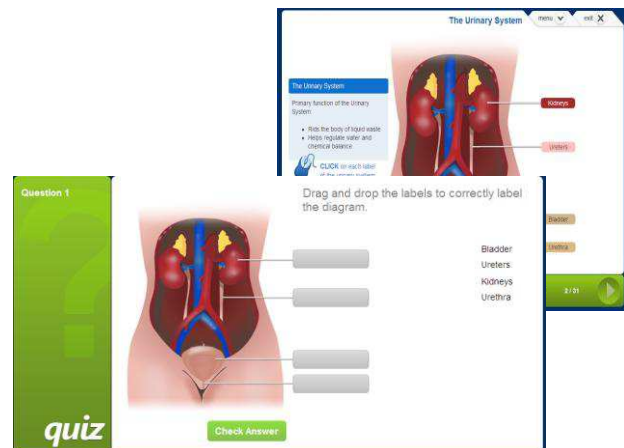

## What does the Learning Management System (LMS) do?

- ❖ Provides online **interactive quiz's** following each module. Where a quiz question is answered incorrectly the student is re-directed back to the content to review and then can successfully answer the quiz question and therefore complete the module.
- ❖ **Tracks** student completion
- ❖ Automatically generates **certificates** which a student/user can print.
- ❖ **Reporting:** Tracks students through courses and downloads students completion results to an excel spreadsheet.
- ❖ Provide modules with **intuitive navigation** to meet the needs of novice users and more advanced users.

## Requirements to take part in the online learning:

- ❖ Login to: <http://bunzl.ecampus.com.au/>
- ❖ A **username** and **password** provided by Bunzl
- ❖ Basic Supported systems
  - Internet Browser
    - Internet Explorer 6 or later
    - Firefox 3.5 later
  - Flash player 9 or later
  - Javascript enabled

## Support

- A dedicated 1300 number for students to call (during business hours)
- Email Support
